

Launch of the Real Life Options Memorial Learning Fund

The new Real Life Options Memorial Learning Fund has been launched in memory of all the colleagues and people we support who have sadly passed away in the past year.

Their legacy can live on through the fund, which offers all staff members the chance to apply for a **fully funded learning opportunity** at diploma or degree level in social care and associated fields. This fund is available to both operational and Business Support staff.

Simply complete the short application form and return to Rachel Matthews, Group Head of HR by email on rachel.matthews@reallifeoptions.org. **The deadline for applications is Friday 18th June.**

"I believe this Memorial Learning Fund will be **a fitting tribute to those who have sadly passed away**," said David Sargent, Chief Executive of the Real Life Options Group. "All of our staff have demonstrated huge resilience this last year, making personal sacrifices in the midst of grief and pain. By funding new learning opportunities in this way we will be reinvesting into social care and contributing to the development of talented people to continue building a legacy of excellent care."

This year, the Real Life Options Memorial Learning Fund honours the memory of all of those who we have said goodbye to since March 2020. Please see the digital Memorial Wall for their names.
